Hundred Chart Madness

Common Core Standard

- Math.Content. 1.NBT.C.5** Given a two-digit number, mentally find 10 more or 10 less than the number, without having to count; explain the reasoning used.
- Math.Content. 1.NBT.A.1** And Count to 120, starting at any number less than 120. In this range, read and write numerals and number of objects with a written numeral.

Learning Objective

- Addition Facts Mastery** Students will be able to find a number on the number chart by locating a number that is 1 or 10 more or less than the numbers given.

Materials Needed

- A hundred chart
- Playing cards (with the center cut out)

Directions

Shuffle the cards. Players take turns drawing a card and placing it on the game board. When a card is drawn that cannot be placed, (because it would overlap with another card) then the other player gets to collect the cards on the board. The person who collects the most cards at the end of the game wins.
