Making the file-folder game

1. Cut out the rainbow words and the pots of gold.
2. Fold the rainbow pieces on the dotted line and glue to the inside of a file-folder.
3. Cut out the pieces pouch and the folder label and glue to the front of the file-folder. When not playing the game students will store the pots of gold in the pieces pouch.
4. You can laminate the pieces to increase the durability of the game.

Directions

5. Without his partner looking one player hides a pot of gold under a rainbow.
6. Next, the second player chooses a rainbow, reads the sight word on the rainbow and then checks to see if s/he's found a pot of gold.
7. When a pot of gold is found that player keeps the pot of gold. If s/he doesn't find a pot of gold then it's that player's turn to hide a pot of gold.
8. Keep taking turns.
9. The player who has the most gold at the end of the game wins.

WARNING - Players can't choose a rainbow with a pot of gold that they've put down.
